Tobler M, Franssen C, Plath M (2008) Male-biased predation of a cave fish by a giant water bug. *Naturwissenschaften* 95:775–779 [featured by: (1) *BBC Wildlife Magazine* 07/2008:45; (2) <http://ghop.exblog.jp/>]

Tobler M, Schlupp I, Riesch RW, García de León FJ, Plath M (2008) Two endemic and endangered fishes, *Poecilia sulphuraria* (Alvarez, 1948) and *Gambusia eurystoma* Miller, 1975 (Poeciliidae, Teleostei) as only survivors in a small sulfidic habitat. *Journal of Fish Biology* 72:1–11 [featured by: (1) Endangered fish live in hydrogen sulfide pools [www.practicalfishkeeping.co.uk](http://www.practicalfishkeeping.co.uk); (2) Two poeciliid fishes found in hydrogen sulphide pools. *TheAquarologist.com* 02/12/2008]

Plath M (2008) Male mating behavior and costs of sexual harassment for females in cavernicolous and extremophile populations of Atlantic mollies (*Poecilia mexicana*). *Behaviour* 145:73–89

- Plath M, Blum D, Tiedemann R, Schlupp I (2008) A visual audience effect in a cavefish. *Behaviour* 145:931–947
- Tobler M, Riesch RW, García de León FJ, Schlupp I, Plath M (2008) A new and morphologically distinct population of cavernicolous *Poecilia mexicana*. *Environmental Biology of Fishes* 82:101–108
- Plath M, Schlupp I (2008) Parallel evolution leads to reduced shoaling behavior in two cave-dwelling populations of Atlantic mollies (*Poecilia mexicana*, Poeciliidae, Teleostei). *Environmental Biology of Fishes* 82:289–297
- Franssen C, Tobler M, Riesch RW, García de León FJ, Tiedemann R, Schlupp I, Plath M (2008) Sperm production in an extremophile fish, the cave molly (*Poecilia mexicana*, Poeciliidae, Teleostei). *Aquatic Ecology* 42:685–692
- Wronski T, Kabasa JD, Plath M, Apio A (2008) Object-horning as advertising and marking behaviour in male bushbuck (*Tragelaphus scriptus*)? *Journal of Ethology* 26:165–173
- Wronski T, Apio A, Plath M, Klingel H (2008) Static-optic advertisement of presence and position in bushbuck (*Tragelaphus scriptus* Pallas, 1766). *Mitteilungen aus dem Hamburgischen Zoologischen Museum und Institut* 104:195–208

## 2007

- Plath M, Hauswaldt JS, Moll K, Tobler M, García de León FJ, Schlupp I, Tiedemann R (2007) Local adaptation and pronounced genetic differentiation in an extremophile fish, *Poecilia mexicana*, from a Mexican cave with toxic hydrogen sulfide. *Molecular Ecology* 16:967–976
- Plath M, Makowicz AM, Schlupp I, Tobler M (2007) Sexual harassment in live-bearing fishes: comparing courting and non-courting species. *Behavioral Ecology* 18:680–688
- Plath M, Tobler M, Riesch RW, García de León FJ, Giere O, Schlupp I (2007) Survival in an extreme habitat: the roles of behaviour and energy limitation. *Naturwissenschaften* 94:991–996
- Tobler M, Schlupp I, Plath M (2007) Predation of a cavefish (*Poecilia mexicana*, Poeciliidae) by a giant water bug (*Belostoma*, Belostomatidae) in a Mexican sulfur cave. *Ecological Entomology* 32:492–495
- Parzefall J, Kraus C, Tobler M, Plath M (2007) Photophilic behaviour in surface- and cave-dwelling Atlantic mollies, *Poecilia mexicana* (Poeciliidae). *Journal of Fish Biology* 71:1225–1231
- Tobler M, Schlupp I, García de León FJ, Glaubrecht M, Plath M (2007) Extreme habitats as refuge from parasite infections? Evidence from an extremophile fish. *Acta Oecologica* 31:270–275
- Apio A, Plath M, Tiedemann R, Wronski T (2007) Age-dependent mating tactics in male bushbuck (*Tragelaphus scriptus*). *Behaviour* 144:585–610
- Plath M, Schlupp I, Parzefall J, Riesch RW (2007) Female preference for large body size in the cave molly, *Poecilia mexicana* (Poeciliidae, Teleostei): influence of species- and sex-specific cues. *Behaviour* 144:1147–1160

Poschadel JR, Rudolph A, Plath M (2007) Non-visual mate choice in the Pyrenean mountain newt (*Euproctus asper*): females prefer small males. *Acta Ethologica* 10:35–40

Plath M, Tobler M (2007) Sex recognition in surface- and cave-dwelling Atlantic molly females (*Poecilia mexicana*, Poeciliidae, Teleostei): influence of visual and non-visual cues. *Acta Ethologica* 10:81–88

## 2006

Wronski T, Apio A, Plath M (2006) The communicatory significance of localised defecation sites in bushbuck (*Tragelaphus scriptus*). *Behavioral Ecology and Sociobiology* 60:368–378

Riesch RW, Schlupp I, Tobler M, Plath M (2006) Reduction of the association preference for conspecifics in surface- and cave-dwelling Atlantic mollies, *Poecilia mexicana*. *Behavioral Ecology and Sociobiology* 60:794–802

Tobler M, Plath M, Burmeister H, Schlupp I (2006) Black spots and female mating preferences in a sexual/asexual mating complex (*Poecilia*, Poeciliidae, Teleostei). *Behavioral Ecology and Sociobiology* 60:159–165

Plath M, Seggel U, Burmeister H, Heubel KU, Schlupp I (2006) Choosy males from the underground: Male mate choice in surface- and cave-dwelling Atlantic mollies, *Poecilia mexicana* (Poeciliidae, Teleostei). *Naturwissenschaften* 93:103–109

Tobler M, Schlupp I, Heubel KU, Riesch RW, García de León FJ, Giere O, Plath M (2006) Life on the edge: Hydrogen sulfide and the fish communities of a Mexican cave and surrounding waters. *Extremophiles* 10:577–585

Wronski T, Apio A, Plath M (2006) Activity patterns of bushbuck (*Tragelaphus scriptus*) in Queen Elizabeth National Park. *Behavioural Processes* 73:333–341

Wronski T, Apio A, Baranga J, Plath M (2006) Scent marking and territorial defence in male bushbuck (*Tragelaphus scriptus*). *Journal of Zoology (London)* 270:49–56

Körner KE, Schlupp I, Plath M, Loew ER (2006) Spectral sensitivity of mollies: comparing surface- and cave-dwelling Atlantic mollies, *Poecilia mexicana*. *Journal of Fish Biology* 69:54–65

Poschadel JR, Meyer-Lucht Y, Plath M (2006) Response to chemical cues from conspecifics reflects male mating preference for large female size and avoidance of large competitors in the European pond turtle (*Emys orbicularis*). *Behaviour* 143:569–587 [featured by: (1) Der Duft der Panzertiere—Sumpfschildkröten erschnuppern die Größe von Artgenossen. *Universum* (Austria) No. 6 (June) 2006; (2) Die Reaktion auf chemische Signale von Artgenossen reflektiert die Paarungspräferenz der Männchen für große Weibchen und die Vermeidung eines Zusammentreffens mit großen Konkurrenten bei der Europäischen Sumpfschildkröte, *Emys orbicularis*. *Wissenschaft im Fokus* <http://www.schildkroeten-im-fokus.de/wif.poschade/01.htm>]

Plath M, Rohde M, Schröder T, Taebel-Hellwig A, Schlupp I (2006) Female mating preferences in blind cave tetras *Astyanax fasciatus* (Characidae, Teleostei). *Behaviour* 143:15–32

Riesch RW, Schlupp I, Plath M (2006) Influence of male competition on male mating behaviour in the cave molly (*Poecilia mexicana*, Poeciliidae, Teleostei). *Journal of Ethology* 24:27–31

- Apio A, Plath M, Wronski T (2006) Localised defecation sites: a tactic to avoid re-infection by gastrointestinal tract parasites in bushbuck (*Tragelaphus scriptus*)? *Journal of Ethology* 24:85–90 [featured by: *The European Zoo Nutrition Centre - Nieuwsarchief* (www.eznc.org./primosite/show.do?ctx=25145,25226,95661)]
- Wronski T, Apio A, Wanker R, Plath M (2006) Behavioural repertoire of the bushbuck (*Tragelaphus scriptus*): Agonistic interactions, reproductive behaviour and parent-offspring relations. *Journal of Ethology* 24:247–260
- Apio A, Plath M, Wronski T (2006) Patterns of gastrointestinal parasitic infections in the bushbuck *Tragelaphus scriptus* from the Queen Elisabeth National Park, Uganda. *Journal of Helminthology* 80:213–218
- Wronski T, Tiedemann R, Apio A, Plath M (2006) Cover, food, competitors and individual densities within bushbuck (*Tragelaphus scriptus*) female clan home ranges. *Acta Theriologica* 51:319–326
- Apio A, Plath M, Wronski T (2006) Foraging height levels and the risk of gastrointestinal parasitic infections of wild ungulates in an African savannah ecosystem. *Helminthologia* 43:134–138
- Plath M, Brümmer A, Parzefall J, Schlupp I (2006) Size-dependent male mating behaviour and sexual harassment in a population of Atlantic mollies (*Poecilia mexicana*) from a sulphur creek. *Acta Ethologica* 9:15–21
- Wronski T, Plath M (2006) Mate availability and intruder pressure as determinants of territory size in male bushbuck (*Tragelaphus scriptus*). *Acta Ethologica* 9:37–42
- Tobler M, Burmeister H, Schlupp I, Plath M (2006) Reduction of a visually mediated association preference in the cave molly, *Poecilia mexicana* (Poeciliidae, Teleostei). *Subterranean Biology* 4:29–35
- Plath M, Tobler M (2006) Coercive mating and genitalia size in two populations of a livebearing toothcarp (*Poecilia mexicana*): do cave molly males have shorter gonopodia? *Zeitschrift für Fischkunde* 8:103–106
- Schlupp I, Poschadel J, Tobler M, Plath M (2006) Male size polymorphism and testis weight in two species of mollies (*Poecilia latipinna*, *P. mexicana*, Poeciliidae, Teleostei). *Zeitschrift für Fischkunde* 8:9–16

## 2005

- Plath M, Heubel KU, García de León FJ, Schlupp I (2005) Cave molly females (*Poecilia mexicana*, Poeciliidae, Teleostei) like well fed males. *Behavioral Ecology and Sociobiology* 58:144–151
- Schlupp I, Plath M (2005) Male mate choice and sperm allocation in a sexual/asexual mating complex (*Poecilia mexicana*, *P. formosa*, Poeciliidae, Teleostei). *Proceedings of the Royal Society London: Biology Letters* 1:169–171
- Poschadel JR, Rudolph A, Warbeck A, Plath M (2005) Influence of visual and chemical cues on the aggregation behavior of Pyrenean mountain newts, *Euproctus asper* (Urodela, Salamandridae). *Subterranean Biology* 3:63–68
- Plath M, Körner KE, Möller A, Schlupp I (2005) Imperfect signal transmission and mate choice in the cave molly *Poecilia mexicana* (Poeciliidae, Teleostei). *Subterranean Biology* 3:57–62

- Tobler M, Wiedemann K, Plath M (2005) Homosexual behaviour in a cavernicolous fish, *Poecilia mexicana* (Poeciliidae, Teleostei). *Zeitschrift für Fischkunde* 7:95–99
- Plath M, Heubel KU, Schlupp I (2005) Field observations on male mating behavior in surface– and cave–dwelling Atlantic mollies (*Poecilia mexicana*, Poeciliidae). *Zeitschrift für Fischkunde* 7:113–119
- Riesch RW, Arndt M, Plath M (2005) Non–visual localisation of a conspecific male by surface– and cave–dwelling Atlantic molly females (*Poecilia mexicana*, Poeciliidae, Teleostei). *Natura Croatica* 14:47–51

## 2004

- Plath M, Parzefall J, Körner KE, Schlupp I (2004) Sexual selection in darkness? Female mating preferences in surface– and cave–dwelling Atlantic mollies, *Poecilia mexicana* (Poeciliidae, Teleostei). *Behavioral Ecology and Sociobiology* 55:596–601 [featured by: (1) Fish in the dark still size up mates. *Science News* 04/02/2004; (2) In a realm of blind fish, Mr. Right and Mr. Big are one and the same. *The New York Times* 04/20/2004 and (3) *Herald Tribune* 04/21/2004; (4) Finding a mate in the dark. *Taipei Times* 04/21/2004]
- Plath M (2004) Cave molly females (*Poecilia mexicana*) avoid parasitised males. *Acta Ethologica* 6:47–51
- Timmermann M, Schlupp I, Plath M (2004) Shoaling behaviour in a surface– and a cave–dwelling population of a barb, *Garra barreimiae* (Cyprinidae, Teleostei). *Acta Ethologica* 7:59–64
